

Drake Symposium

April 8 & 9, 2022 | Des Moines, IA

The Drake Symposium is the premier collegiate actuarial conference in the country. Hosted by the Chi chapter of Gamma Iota Sigma, the event brings together actuarial students to engage in the insurance industry and further their education, while making valuable connections with participants from across the country. The Drake Symposium is a unique opportunity for students, providing access to a diverse group of companies from across the country.

“The Drake Symposium was a great opportunity for our students to be exposed to industry experts while growing our own networks within the actuarial industry. Our students are now more equipped with industry insights and connections that they will leverage as they navigate their collegiate and working careers” - Jimmy Kroll

Case Competition

Students have the opportunity to participate in an optional case competition at the Drake Symposium. In teams of 3-5, students solve a real actuarial case before the Symposium and present their results to actuarial professionals. This is a unique opportunity to show off your skills to the industry and make connections!

Prize Fund

First Place: \$1,200
Second Place: \$800
Third Place: \$400
